GARAGE

The Vegas

boat on a trailer

6C

The Lees

library room, floor to ceiling

6D

The Duarte

porch swing, wind chimes

How to Run the Hat

Setup

Every student holds four household cards. Each household pays \$1 into the pot -- \$24 total.

The dice

Die 1 picks the student (1-6). Die 2 picks the card: 1=A, 2=B, 3=C, 4=D.
Rolled a 5 or 6 on die 2? Roll it again.

Round 1 -- the fire

Roll. That household's house burns down. The pot pays to rebuild. Everyone lost \$1; nobody lost everything. That is insurance.

Round 2 -- pricing risk

Households with a GARAGE badge pay \$0.50 extra into the pot -- more stuff to burn costs more to cover. That is underwriting.

Round 3 -- skin in the game

Roll again. This time the losing household pays the first \$5 before the pot pays the rest. That is a deductible.

Run the game first. Name the concepts second.
